

## **Dr. Claudio Cobelli**

Claudio Cobelli is Full Professor of Bioengineering at the University of Padova, Padova, Italy; and Affiliate Professor of Bioengineering at the University of Washington, Seattle, WA, USA. His research activity regards mainly modeling and control of metabolic systems, with focus on glucose metabolism, and is mainly supported by NIH, JDRF and European Community. He is author of 270 scientific publications in international journals and co-author of 8 textbooks, including the recent "Introduction to Modeling in Physiology and Medicine", Academic Press, 2008. He is Chairman of the Graduate and Ph.D. Program in Bioengineering at the University of Padova, Italy.

He is an IEEE Fellow. He is Associate Editor of Mathematical Biosciences, IEEE Transactions on Biomedical Engineering, Diabetes and on the editorial board of American Journal of Physiology Endocrinology & Metabolism and Journal of Diabetes Science & Technology.
